

Part Number 21614

The PM2-277

Specifications:

Data Input Configurations:

Two (Form A) or (Form C) inputs
For Gas, Water or BTU Applications

Dimensions: 10" H x 8" W x 3"

Specifications:

Pulse Width (Min): 200 ms
Duty Cycle (Max): 600 ms
Pulse Rate (Max): 1.67 / sec.

Electrical ratings:

Instrument Power : 277V ac
60 Hz, 9VA

Temperature: - 20°C to + 50°

Humidity: 0-95% non-condensing

Accuracy: Exceeds ANSI C12.1 and Canadian standards

Memory: non-volatile EEPROM

Approvals: UL, FCC Part 15 Class A and Class B,
CSA, Industry and Science Canada
Legal Metrology AE-0504 Rev.1

Communication: Power Line Carrier
